Aspire to a Brighter Future

Everybody has aspirations – a better car, a bigger home or a comfortable retirement. As a smart individual, you know the importance of saving for a better future. But sometimes the unexpected happens and your savings may be needed for life-saving emergencies.

According to statistics, 19 people are admitted to the hospital every hour; approximately 1,035 people* perish from accidental injuries annually and many more leave their families without life savings. Secure a better future now because life is full of uncertainties.

Securing a Better Lifestyle While Protecting Your Family's Future

Harmoni helps meet your aspirations while providing protection and savings from just RM70.00 contribution a month. You are also allowed to withdraw some of your money from the Participant Investment Fund should you require it. Harmoni gives you peace of mind and flexibility in managing your finances without compromising your Takaful Coverage.

In times of misfortune, your family will get the total Sum Covered to help ease their financial worries. With Harmoni, you can rest assured that the people you care for the most will be taken care of financially.

Plan Features

Your investment principles are fully respected by way of Takaful – a Shariah-compliant plan in which participants agree to help each other by making contributions in the form of Tabarru' (donation) to a Family Takaful Fund. As managers of this Fund (according to the Wakalah concept), we are responsible for ensuring that it is well positioned to honestly provide returns and benefits; and that it delivers prompt payments to the participants in times of need.

As representative, Etiqa Family Takaful Berhad is entitled to receive a Wakalah fee as a service charge. This fee is borne by the Participant through deduction from the contributions paid. The actual fees vary depending on the Certificate year and contribution term selected. Please refer to the Marketing Illustration for more information.

If there is any distributable surplus at the end of each financial year, it will be shared on a 50:50 basis between the Participant and the Takaful Operator. A participant will not be entitled to the distributed surplus if his/her certificates have been terminated and he/she has made a claim under this Certificate in that particular financial year.
